ServiceNow Community Profile

Summary

Proven ServiceNow Developer with 4 years of experience in ITSM, HRSD, CSM, custom applications, and integrations. CSA and CAD certified. Ranked among the top solution authors on the ServiceNow Community, with 340+ accepted solutions. Skilled in designing and implementing innovative workflows that optimise business processes. Committed to continuous learning and delivery of high-impact results through cross-functional collaboration..

Skills

Tools ServiceNow, Postman, Soap UI, GitHub, Claude

Languages JavaScript, SQL, HTML, CSS, AngularJS

Modules ITSM, Custom applications, Integrations, CSM, HRSD

Certifications

Certified System Administrator (CSA)

ServiceNow

Certified Application Developer (CAD)

ServiceNow

CIS-HRSD

ServiceNow

Education

B.E. Computer Science

2018 – 2022

Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya

CGPA: 9.47/10

Experience

FIS

June 2022 – Mar 2026

Software Engineer II

- Designed and implemented ServiceNow solutions across CSM and ITSM modules, improving case resolution efficiency.
- Developed customer-centric workflows including case lifecycle management, SLA tracking, and real-time notifications.
- Built reusable components using Script Includes, Flow Designer, and UI Scripts to enhance development efficiency.
- Designed REST integrations and eBonding solutions to enable seamless communication between customer systems and ServiceNow.
- Strengthened platform security using ACLs, authentication policies, and secure API access.
- Created dashboards and reports to monitor SLA performance and customer service metrics.
- Resolved incidents and performed root cause analysis following ITIL best practices.
- Delivered innovative PoCs to improve customer interaction and automation within the platform.

Fanatics

May 2026 – Present

Senior ServiceNow Developer

- Slack Spoke: Engineered a configurable approval payload for the Slack Spoke, enabling seamless multi-channel approval workflows and dynamic messaging.
- Legacy Assessment Migration Strategy: Connected Claude and VS Code via the ServiceNow SDK (now-sdk) to audit and extract custom platform applications; mapped end-to-end workflow diagrams using Lucid MCP to drive the ServiceNow-to-Freshworks migration strategy.

Key Projects & CSM Implementations

CSM - Customer Incident Communication

- Integrated CSM Cases with ITSM Incidents to provide real-time customer visibility.
- Built REST APIs to sync incident updates with customer-facing cases.
- Implemented proactive notifications improving transparency and reducing support load.

Incident Auto Prioritization

- Automated incident prioritization based on impact and urgency, improving response times.

JIRA to ServiceNow Migration

- Migrated 200K+ records using REST APIs ensuring accurate and efficient data transfer.
- Optimized system performance post migration.

ServiceNow to ServiceNow Migration

- Migrated catalogs and workflows, improving efficiency and achieving cost savings.

eBonding Framework

- Built reusable eBonding solution to integrate external customer systems.

Catalog Builder Implementation

- Enabled business users to create catalog items independently, reducing developer dependency.
